SUMMARY

I am graduate of Informatics in Nahdlatul Ulama Al Ghazali University, Cilacap. I am highly adaptable, growth-oriented, and eager to continuously learn in dynamic environments. As an Enthusiast Frontend Developer, I focus on building responsive, user-friendly, and visually appealing web interfaces. I have experience in UI/UX design into functional web applications using modern technologies, ensuring optimal performance across devices and browsers. I am also familiar with managing code efficiently, collaborating with teams, and continuously improving user experience through clean and maintainable code. I am passionate about staying up to date with the latest frontend trends and technologies, and I am committed to delivering high quality digital products that meet both user needs and business goals.
